

# May Their Light Shine Through You...

*Some 175 innocent lives were senselessly destroyed in Mumbai. Among them, Rabbi Gavriel and Rivka Holtzberg were brutally murdered while serving their Chabad House with love.*

*The Rebbe, Rabbi Menachem M. Schneerson, taught us to defy darkness with light. The beacon of light that Rabbi and Rebbitzin Holtzberg provided will shine even brighter as we continue their mission to spread wisdom and joy to every corner of the world.*

*Each of us has the power to add life to their souls by renewing our commitment to their love and kindness.*

*Join the campaign to "Keep Rivka's Flame Alive" at [www.FridayLight.org](http://www.FridayLight.org). Take on the mitzvah of lighting Shabbat candles each Friday night, or commit to continue lighting the Shabbat candles, and illuminate the world with Rivka's trademark warmth and peace through lighting your candle.*

*Jewish tradition teaches that the Shabbat candles, lit just before sunset on Friday evening, accompanied by a Hebrew blessing, have the power to illuminate one's home, family, community, and the entire world. Let us defy the darkness of Mumbai one candle at a time.*

*Join us, won't you?*

Visit [www.FridayLight.org](http://www.FridayLight.org) to add your light today.

*FridayLight is a campaign started in 2006 to encourage Jewish women worldwide to experience a weekly moment of inner peace, combat darkness, and connect to other Jewish women, through the timeless practice of lighting Shabbat candles*
